

Kölner Liste®

Wat is de Kölner Liste?

Voedingssupplementen en producten kunnen verboden stoffen voor atleten bevatten. De Kölner Liste is een lijst van producten die zijn getest op deze stoffen. De ARG1+ bevat volgens het Centrum van preventieve dopingvoorlichting van de Duitse Hoge Sportschool in Köln geen anabolen of andere verdachte substanties. Het gebruik van producten die op de Kölner Liste staan vermindert het risico voor atleten om onbedoeld het slachtoffer van doping te worden. De Kölner Liste is geen aanbeveling voor atleten om voedingssupplementen te gebruiken. Het doel is enkel om betere informatie te verschaffen en de transparantie te verbeteren!

Onderstaande producten van Forever staan op de Kölner Liste:

Forever Active HA
Forever Freedom
Aloe MSM Gel
Aloe Heat Lotion
Forever Active Boost (FAB)
Forever Nutra Q10
ARG1+

PRODUCT DATABASE

The Cologne List supports the assessment of a certain nutritional supplement by athletes, coaches and sport medicine specialists. The Cologne List and respectively the Olympic Centre Rhineland do not take on any responsibility using a product published on the Cologne List. The ultimate responsibility remains with each athlete.

Please note:

Neither the fact that a product is published on the Cologne List nor a negative laboratory analysis is a warranty that the product does not contain any prohormones, anabolic substances, or stimulants. The Cologne List only ascertains that listed products are associated with a minimized risk of doping.
